

Ab Initio Program up to ATPL (Theory)

Perkasa Flight School is a brand name of an Indonesian certified flight school under PT MITRA AVIASI PERKASA with the Pilot School Certificate PSC – 141 / 017, which focus on producing cadets that ready to take up a role as a commercial pilot. Started its operation in July 2013 and approved by Civil Aviation Authority of Vietnam and Lao People's Democratic Republic. Each cadet is trained to be reliable pilot by experienced instructors, the best facilities and the most reliable aircrafts. Perkasa Flight School has three training bases which are ideal for flight training and ground school i.e. Tunggal Wulung airport – Cilacap, Nusawiru airport – Pangandaran, and Cakrabhuwana Airport - Cirebon.

Ab initio pilot program in Perkasa Flight School enable cadets to become reliable pilots within relatively short period i.e. between 14-16 months due to efficient ratio aircraft and cadet of maximum 1:5 (1 aircraft for 5 cadets). In addition to this efficient ratio, Perkasa Flight School is equipped with modern teaching and learning facilities, with comfortable accommodation, thus supporting cadet environment in completing his/her pilot training. Cadets are trained by experienced instructors.

Currently, Perkasa Flight School conducts training for Indonesia DGCA / ICAO License such as PPL (Private Pilot License), CPL (Commercial Pilot License), IR (Instrument Rating), Multi Engine Rating and Flight Instructor Certificate. Perkasa Flight School is establishing cooperation with a number of airlines in ASIA and EUROPE member states which will assist its ab initio pilots to work in the Airlines around the world.

Inspired by the fast - growing airline industry in Indonesia and around the world, PT. Mitra Aviasi Perkasa/Perkasa Flight School, in order to provide qualified and professional pilots to the market, develops its airline-ready pilot program or Zero to Hero program and also Cadethship Pilot program by with various outstanding ATO's for type rating course and Airlines in Europe for line training up to 500 hours on type. So, only in perkasa flight school you can be trained from zero to hero up to 500 hours on type and recruited as a first officer with affordable price and no hidden cost.

Ab Initio Program (PPL, CPL-IR) up to ATPL (Theory) : Single Engine	Ab Initio Program (PPL, CPL-IR) up to ATPL (Theory) : Multi Engine
